AWESOME TECHNOLOGIES INC.

How we are changing the game for our partners?

Stephen Barton – Owner
Eustis Mortgage

"When I met Noor and the team over a decade ago, I knew we would be partners in building a technology world. We have been using a lot of their tools and services which includes Business Intelligence Tool – Bullseye Metrics, Compensation Tool – E-Compensate, Custom Development & RPA. All these tools have made us more efficient in our lending processes. The best part about Noor and his team is that they are always available to help us with our queries. Awesome Technologies will improve your processes and do it for an "Awesome Price."

Goni Karamuco - VP Systems Development
Great Western Financial Services

"For the past 10 years, ATI has been instrumental in the growth of GW; its team continues to build and improve our tools by creating efficiencies in various areas, such as: workflow, pipeline management, reporting and custom programming. Its members approach all projects with a can-do attitude and a sense of urgency. We could not have found a better partner."

BULLSEYE METRICS

Bullseye Metrics

Follows 3 simple steps to visualize your data

Bullseye Metrics helps you analyze your data by converting it into meaningful visual representation. This allows you to stay focused on the matters which contribute to your business and helps you grow.

Collect your data

You can connect to all leading databases and other data sources in Bullseye Metrics like XLS, CSV, SQL Server and the same can be done with a few clicks.

Make data stories

Jump into your data and generate insights with simple tools. Save those insights as beautiful, interactive reports that reveal the stories hidden in your data.

Gather & Visualize

Generate personalized dashboards and keep up on metrics that matter to you. Visualize all your data and empower your organization to make quick, confident decisions.

Kate deKay-Owner
Eustis Mortgage

We have been partnered with Awesome Technologies Inc. for almost a decade now and they have helped us transform our business. One of the best technology tools that we have used from their range is their Business Intelligence Tool – Bullseye Metrics. It gives us access to real time data with pre-built reports plus allows us to build customized dashboards. It has helped us dive deeper in all areas of our business and has been a game changer for us. I would recommend my fellow lenders to have this implemented in your environment to have quick results and grow your business.

E-COMPENSATE
EMPLOYEE COMPENSATION & ONBOARDING MANAGEMENT

AWESOME TECHNOLOGIES INC.

How does E-Compensate make your life better?

Comp Plan Flexibility
Compensation Plans can be complex! Let E-Com simplify your payroll with flexibility to handle Tiers, Team Comp, Operations to Deducting draws. Nothing is too complex for E-Com.

1

2

Simplicity
E-Com can be integrated to work with all LOS providers and upload to almost any Payroll System.

Scalability
E-Com allows for customizable plans that outline how compensation is calculated so employees can easily understand their commissions thus reducing the amount of time HR spends handling questions and executing payroll.

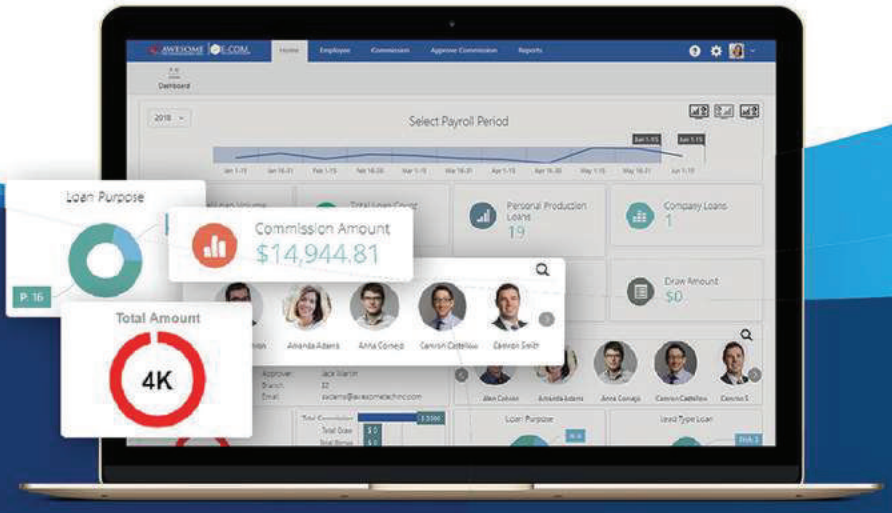
3

4

Compliant
As the mortgage banking industry evolves, products change and regulations become more detailed, thus making the payment processing to production personnel that much more challenging.

Todd Seib - Chairman
Brazos National Bank

"For keeping our LOs and other producing staff happy we must work on compensation using spreadsheets and have to use emails for the confirmation, inturns the comp manager's inbox is full of back and forth email at the same time the producing team members are not timely addressed. By implementing E-Compensate from Awesome Technologies Inc. we are able to get rid of emails, spreadsheets, and manual processes and are able to do commission calculations fast & accurately. As ATI has mortgage knowledge they have created the right product which suffices the needs of mortgage commission generation workflow."



FEATURES:

- Employee Onboarding
- Integration with all major LOS
- Automatic calculations with recoup of draws
- Bonuses based on volume, unit or hybrid
- Transparency with end-users with multiple approval workflows
- Set yourself free from Excel Spreadsheets

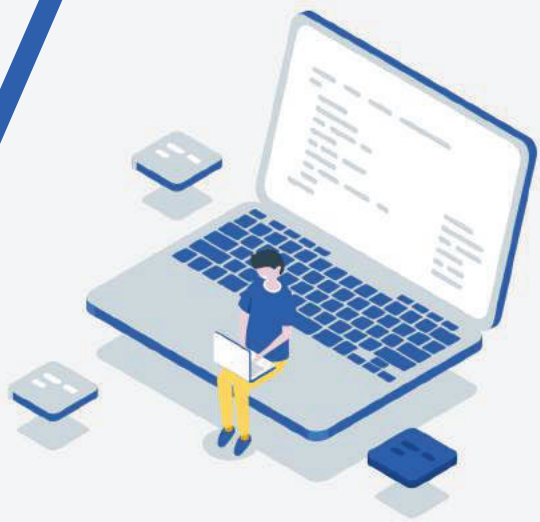
LOS Admin Services



A-Z Encompass Help! Let our LOS admin squad handle all your admin needs or help your current admin achieve your goals.They handle anything from health checks to business rules on Encompass.

- Save Time & Money
- Reduce Operational Risk
- Get years of expertise

Eric Estrada - Managing Director
Susser Bank

"Awesome Tech has allowed us to become more efficient in every one of our mortgage departments. We have experienced faster turn times therefore allowing the client to close their transaction sooner. Their level of experience has allowed us to customize our LOS to meet the needs of our operational staff. The automation behind the reporting tools will allow for more accurate information in a faster timeframe. The Awesome package has eliminated the need for 2-3 LOS admins and given us the same level of support plus access to a development team as needed, all while costing less. I would recommend Awesome Tech Inc to anyone looking to maximize the performance of their LOS."

Todd Seib - Chairman
Brazos National Bank

"We have been working with Awesome Technologies Inc. and getting help with our Encompass Admin work, with their in-depth mortgage industry knowledge and hands-on expertise with Encompass they have recommended areas of improvement from day one. We don't have to worry about maintaining an inhouse Encompass Admin anymore which is very cost effective for us. The best part about their Admin Services is that they not only perform the tasks but also teach us so we can resolve similar kinds of issues, if they occur. Apart from personalized service, the toolbox in the shape of plugins and custom forms helped us get ROI right off the bat. ATI is an integral part of our core software services and we highly recommend them for similar kinds of job."

Our Services Include

Administrative Support
Build, manage and support your LOS platform.

Implementation
Setup and connect your LOS to internal systems and vendor services.

Professional Services
Make decisions to optimize your system strategies and best practices.
